Lemvig, Denmark, 9th November 2020

Egholm launches four winter upgrades to powerful utility machine

In December last year, Egholm introduced the new City Ranger 3070 to the market which is now followed up by four efficient winter attachments - a snow sweeper, snow plough, snow V-plough and salt and sand spreader.

City Ranger 3070 is a large compact and multifunctional utility machine. With a total weight of 3 tonnes, an engine capacity of 67 HP and a new innovative sweeping system, the machine has become the preferred choice by many actors within the field of urban cleaning.

Besides the cutting-edge sweeping technology, the City Ranger 3070 has 1 m³ hopper capacity, high manoeuvrability, optimal operator comfort and Quick-shift, meaning that attachments can be changed in less than one minute.

Enter winter time - with ease of mind

This fall, Egholm is launching four winter attachments to the City Ranger 3070 emphasizing the true meaning of multifunctionality. The new additions - a snow sweeper, snow plough, snow V-plough and salt and sand spreader - will allow housing associations, contractors and municipalities to keep the traffic running and pedestrian zones safe when snow starts falling.

A tool for any task

The snow sweeper easily sweeps away up to 250 mm of light fluffy snow while the snow plough handles up to 400 mm of heavy snow. When even heavier and icy snow covers the ground, you need the snow V-plough close at hand. It uses the tip of the 'V' to cut through heavy and encrusted snow, separating and pushing it to both sides. Finally, the salt and sand spreader is a perfect match to the front attachments with a maximum capacity of 600 l or 950 kg all depending on the material.

About Egholm:

Egholm A/S develops, produces and markets utility machines that keep roads, parks and outdoor areas clean and inviting all year round. Built by craftsmen in Denmark, Egholm machines are in operation in cities and parks all over the world. With special attachments developed for the machines, Egholm machines deliver perfect results no matter the task at hand. Egholm A/S is a family-owned and family-run company with deep roots in the West of Denmark. For more information on Egholm, please visit www.egholm.eu.
